Additional Accommodation at the Central Distillery

From

The Excise Commr in Mysore

No. 966 Dated 22/7/13 Received 24/7/13.

Diary No. 389	Enclos. 1	Spare Copies. —	Serial No. 3

BRIEF ABSTRACT OF LETTER.

Requests that a sum of Rs 30,000/- may be placed at the disposal of the Chief Engineer to undertake the execution of certain works (additions & alterations) in the Central Distillery which are considered very necessary & of an urgent nature and also he represents that an open shed may be ordered to be built in anticipation of sanction

NOTES AND ORDERS.

The Excise Commr brings to the notice of Govt. that seven items of additions and alterations to the Distillery buildings are quite necessary and of an urgent nature. He requests that Rs 30,000/- may be placed

NOTES—First Sheet.

at the disposal of the Chief Engineer for undertaking those works at a very early date. It is also stated that the construction of an open shed at an estimated cost of Rs 4810/- may be ordered to ~~be~~ be taken up in anticipation of the allotment of funds.

2. It is submitted that, if the latter addition of the shed is very urgent, the Chief Engineer may be requested to take up that work at once, which he will do in preference to some other works for which funds are already allotted in the P.W.D budget for the year.

3 This suggestion is made because the allotment of additional funds will have to be made after consulting the Chief Engineer in the first instance as to whether ~~the~~ item can be met from the ordinary grants of the P.W.D budget: and if that is not possible the finance dept will have to be consulted as to the feasibility of giving additional grant at this stage. No reappropriations can be suggested so early in the year.

I have the honor to be,
Sir,
Your most obedient servant,

Excise Commissioner.

Enc 45 SC No 3

No. 9488

Excise Commissioner's Office,
ted, Bangalore, 19th June 1913.

From

M. Kantaraj Urs, Esq., B.A.,
Excise Commissioner in Mysore.

To

The Chief Engineer
in Mysore,
Bangalore.

Sir,

I have the honor to inform that at a recent inspection of the Government Central Distillery, I was impressed with the urgent necessity of the following works being executed (both original and alteration) and to request that you will be kind enough to take the necessary action in the matter at a very early date.

I. <u>The long room in the Warehouse used for bottling purposes</u>. It is found with the increasing issue of these liquors, the present accommodation is very inadequate. It is expected that the work under this head will greatly increase in the future.

I propose that the passage between the Warehouse and the Receiver Room be covered up and a terraced roof provided for the new structure - sky lights being provided for lighting the place.

2. The front office room in the Warehouse is so small and lo that great inconvenience is felt by the Inspectors to work.

I propose the extension of the room on both sides and also in front, with the floor raised 18" to 2' above the ground and a terraced roof provided.

The slope of the ground now drives all the rain-water ~~etc~~ into the Warehouse causing much inconvenience.

3. The floor and sides of the mixing tank is now made of concrete and bricks. The action of the acid in the jaggory and molasses corrodes the concrete, ~~heavin~~ leaving the tank in an unsaf state.

state. Moreover the fermentation of the saccharine matter is delay -ed considerably owing to this absorption of lime by the solution of jaggory.

I propose that the tank be lined with glazed or any other kind of non-corrosive tiles which will also prevent the necessity of frequently repeating the tank.

II. I have also to request you to be good enough to have the works required by me in my No. 7405 dated 27-3-13 completed as early as possible as they are urgently required, now that the monsoons have begun.

1. Open shed for molasses.
2. Rebuilding the old molasses godowns.

2. The check drain in front of the Eastern veranda of the Warehouse should be made deeper to lead the heavy stream of water flowing towards the same. The water now stands about 2' high against the Warehouse wall, not only interfering with full and empty casks stored in the veranda but also damaging the Warehouse wall quickly. This may be kindly rectified at once.

III. I have the honor to enquire if any definite arrangement has been arrived at, in connection with the channel leading the spent wash out of the Distillery. Now that the Tannery refuse is allo od to be let into it, the stench from the stagnant discharges is so offensive and is causing such a lot of sickness among the Distillery staff living in the Quarters, that, it is high time that some - - definite action was taken in the matter.

IV. I am sending a copy of this letter to Government for informa- -tion and will move for the sanction of the necessary funds if I am favoured early with the probable estimate of the cost of these works at a very early date.

V. It is requested that this requisition may be considered as urgent and the necessary orders issued.

I have the honor to be,
Sir,
Your most obedient servant,

(sd) M. Kantaraj Urs.
Excise Commissioner.

Bangalore.

Sir,

With reference to your letter No.Fl.2910/S.R.268-12-4 dated the 6th instant, I have the honour to state that the Executive Engineer, Bangalore Division, was duly authorised to push on with the construction of the open shed required for storing molasses in the Government Distillery buildings at Bangalore, pending the submission of and sanction to an estimate.

2. The Superintending Engineer has been requested to report at once the progress made with the work and the same will be forwarded on receipt.

I have the honour to be,

Sir,

Your most obedient servant,

K. Krishnaiengar

Offg: Chief Engineer of Mysore.

Bangalore,

To

K.R.Srinivasaiengar, Esq., M.A.,

Secretary to Government,

General & Revenue Departments,

Bangalore.

Sir,

In continuation of this office No.516 dated the 19th January 1914, I have the honour to inform you that the Superintending Engineer, Southern Circle, reports that the walls of the open shed under construction, for storing molasses in the Government Distillery buildings at Bangalore, have been raised to the roof level and that the building is expected to be completed shortly. The estimated cost of the shed is Rs 4,750.

2. Another estimate amounting to Rs 6,640 for constructing an additional wash room has been submitted to Government for sanction.

3. A sum of Rs 10,000 is provided for these two works in the General Reappropriation Statement recently submitted to Government.

I have the honour to be,

Sir,

Your most obedient servant,

K. Krishnaiengar

Offg: Chief Engineer of Mysore.
